EDUCATION

B.Tech in Artificial Intelligence and Machine Learning

GLA UNIVERSITY

Current CGPA: 8.77/10.0

Relevant Coursework: Python Programming, Engineering Mathematics, DBMS, Basics of AI & ML.

08/2025 – Present
MATHURA, UTTAR PR
ADESH

CLASS XII

ST. PAUL'S SENIOR SECONDARY SCHOOL

Percentage: 90%

04/2024 – 03/2025
MATHURA, UTTAR PR
ADESH

SKILLS

LANGUAGES

C, PYTHON, MYSQL,

CLOUD & DATABASES

MICROSOFT AZURE

WEB FUNDAMENTALS

HTML, CSS, JAVASCRIPT

CERTIFICATES

AI for Beginners

Issued by HP LIFE | March 2026

Microsoft Certified: Azure Fundamentals

Issued by Microsoft | May 2026

AWARDS

PARTICIPANT-Hack-The-Den 2026

Coders Den & IEEE IPEC

"Developed and showcased 'LearnAI', an innovative artificial intelligence project, during the open-source hackathon.

12/06/2026

PARTICIPANT-Vision-X

HACK4TECH COMMUNITY

Engaged in technical activities and explored emerging trends in AIML at GLA University.

20/04/2026

PARTICIPANT-INDIA AI IMPACT BUILDATHON 2026

HCL GUVI

10/02/2026

PROJECTS

LearnPathAI

LearnPath AI | React.js, FastAPI, LLaMA, MongoDB, Firebase

06/2026 – 06/2026

- Built an AI-powered educational app providing personalized learning roadmaps, diagnostic quizzes, and an interactive AI tutor.
- Developed a PDF-processing module that trains AI on uploaded documents to instantly generate summaries, notes, and custom time-bound tests.
- Implemented secure Google Authentication (Firebase) and a custom automated SMTP email service for real-time security alerts and user engagement.

ABC University - Global Campus Portal

04/2026 – 04/2026

Python (Flask), MySQL, HTML/CSS, JavaScript

- Developed a fully functional, full-stack university campus portal with a secure administrative login system.
- Architected the backend server utilizing Python and dynamic routing, integrating it with a robust SQL database to manage university records.
- Designed a responsive and clean user interface using HTML and CSS, ensuring a seamless user experience.
